

Caring for the Next Generation

Green Solutions from Thermal Services

At Thermal Services, we are making it easier than ever to take care of your family as well as the environment. In a world where our precious resources are taxed to the limit and global issues hit closer to home, it's good to know that you can help simply by upgrading your heating and cooling system. Our "Green Solution" package is the ideal way to keep your home and family comfortable year round while taking steps to help the environment. This bundle of products is designed to provide your home with superior energy efficiency, cleaner air, less emissions and as a result, save you money in the process.

Products in this package include the following:

Trane XL16i Heat Pump

The XL16i features an increased efficiency rating that may substantially lower your home heating and cooling costs. Its two stages of cooling meet any outdoor climate conditions and prevent interior temperature swings even in hard to heat rooms, making this a smart choice for flexible family comfort.

Trane XV95 Furnace

The Trane XV95 Furnace offers a 96.7% efficiency rating—one of the highest ratings in the industry—and is Energy Star qualified. Enjoy the even heating of the variable speed fan motor which adjusts to provide a consistent flow of warm comfortable air with an amazingly quiet operation.

Package Includes:

Trane XL16i Heat Pump

Energy efficient, eco-friendly, cost effective

Trane XV95 Furnace

96.7% efficiency rating, Energy Star qualified

Trane CleanEffects

Removes 99.9% of allergens that pass through it

Honeywell IAQ Thermostat

Intelligent, programmable

Trane Bypass Humidifier

Alleviates dry conditions in the home

It's Hard To Stop A Trane.

Trane CleanEffects

The Trane CleanEffects air cleaner is the world's most effective whole house air filtration system. Its revolutionary design utilizes a patented breakthrough in air cleaning technology to remove up to 99.9% of allergens from the air that passes through the filter. This makes it 8 times more effective than the best HEPA filter and 100 times more effective than any standard 1" filter.

Honeywell IAQ Thermostat

Honeywell's IAQ (Internal Air Quality) Total Home Comfort System lets you control every aspect of your home's air quality. It eliminates the need for multiple controls in your living space by managing your home's temperature, humidification, dehumidification and ventilation from a single, easy to use touchscreen panel. You can program this system to save up to 33% on annual heating and cooling costs and enjoy precise control of your entire HVAC and air quality operation.

Trane Bypass Humidifier

Eliminate dry conditions in the home with the Trane Bypass Humidifier. Enjoy gentle comfort throughout your entire home and help eliminate static and dry air by balancing the proper amount of moisture in your home. Avoid damage from dry air to furniture, woodwork, paintings and musical instruments in cold winter months. It also helps control airborne particles that can easily circulate in dryer conditions.

These HVAC systems feature eco-friendly R-410a refrigerant.

Soon to be the standard in the industry, Thermal Services is providing its customers with systems that use R-410a, which does not contribute to the depletion of the ozone layer.

In cooperation with the experts at Trane, Thermal Services is proud to offer these top of the line products to their customers who want to take advantage of the forward thinking technology that can make a difference both in the home and the environment. As a package, these products work together and offer superior comfort while providing outstanding energy efficiency.
